

# Exceptional Achievement Program

## Professionalism

Personal and work ethic

## Disciplined

Life skills program

## Complete

Theatrical environment

## For the Body:

Famous PEOPLE Players builds strength, improves flexibility, and enhances cardio-vascular fitness through our Theatre Program.

## FPP's Philosophy is...

### A healthy body = A healthy mind.

Moving quickly from one department to another, standing straight, and looking everyone in the eye makes a great impression. This carries through to the Culinary Arts Department when presenting the entrées to the customers at their tables. FPP enriches the soul of every member by building their resilience and guide them on how to make the right choices in life.

## For the Mind:

Our Program is like a “Brain Gym”. This means that we go from one job activity to another, getting the rhythm and attitude that everyone requires to embrace the outside world. This technique is no different than a personal trainer giving an individual circuit training to get their body in shape. We are essentially doing circuit training for the brain. Speed and efficiency are stressed which allows participants to become fully independent members of society. Memory games are learned in all departments. In the Theatre Program, it is music that becomes the teacher and ignites the rhythm for the mind to think more clearly and efficiently. Thus, our participants organize the environment around themselves with concentration and focus to achieve success.

## For the Spirit:

We cultivate everyone's spirit through our meditation classes in a theatrical setting that defies gravity. At FPP, all participants learn the value of teamwork, leadership, cooperation, and compassion while learning about strong work ethic and professionalism. This is accomplished with respect and dignity. All participants are challenged to 'go beyond' to achieve the impossible. From Theatre to Culinary Arts, Hospitality and our Volunteer Program, everyone learns to 'pay it forward', give back, and help others who are having difficulty. They learn patience and how to make a commitment to a dream with respect and dignity
